- 17.** Write a paragraph about the Republic Day Celebrations that you attended in your college last year.
- 18.** Read the passage given below and answer the questions that follow :

Actually, besides the God-given natural ability to think, two more things are necessary to think effectively. These are knowledge and organization. The reason you can't think clearly about certain problems is that you do not have enough relevant knowledge or experience pertaining to them. If you have no knowledge of a subject, you have no starting point for your thoughts; or you will think from a wrong assumption and think incorrectly. Relevant knowledge can only be acquired through experience, from society in general, from listening to others and from reading.

One important ingredient which many miss is interest or curiosity. You must have a spontaneous and genuine curiosity about a subject in order to gain much knowledge about it. One good way of being interested in others is to listen a little more to others. Another way of acquiring knowledge is to read with your mind instead of only with your eyes.

*Questions :*

- (a) What, according to the author, are the two essential things for effective thinking?
- (b) What happens when a person does not have enough relevant knowledge?
- (c) How can we acquire relevant knowledge? State at least two ways.
- (d) What quality should one possess in order to gain enough knowledge of a subject?
- (e) How should we read?
