16. Write a letter to the police inspector complaining about your stolen motorcycle.

*

17. Make a note of the following :

The action inside a typical beehive appears frenzied but actually is as controlled as a space-shuttle launch. The two categories of residents—house bees and field bees perform a great variety of chores. The house bees include housekeepers, who clear up debris. If an object is too long to move—a mouse for example, that has invaded the hive and been stung to death—the housekeepers remove its hair and mummify it with propolis, a resin gathered from trees. Other house bees include ventilators, who stand near the entrance whirring their wings to air-condition the interior, and undertakers, who remove dead bees from the hive. Then there are the hive workers whose main job is building new combs to store honey. Beeswax, a sort of fat, is extruded from glands on the underside of the builder's abdomen. After removing the wax with their feet, the bees chew it into tiny balls to build an engineering marvel—the two-layered, six-sided honeycomb used for raising the young and storing honey. Repairer bees mend old combs, while cappers spread wax on newly finished comb layers between and around each comb, moreover, these masterly engineers construct an elaborate road system of 'bee spaces' from half a centimetre to a centimetre wide.

18. Read the following paragraph carefully and answer the questions that follow :

Each one of us must realize that the only future for India and her people is one of tolerance and cooperation which has been the basis of our culture from ages past. We have laid down in our constitution that India is a secular state. This does not mean irreligious. It means equal respect for all faiths and equal opportunities for those who prefer any faith. We have therefore always to keep in mind this vital aspect of our culture, which is also of the highest importance in India of today. Those who put up barriers between one Indian and another and who promote disruptive tendencies do not serve the cause of India or her culture. They weaken us at home and discredit us abroad.

- (a) What is the basis of our culture?
(b) What have we laid down in our constitution?
(c) What aspect of our culture is of the highest importance?
(d) Who do not serve the cause of India?
(e) Find the word from the passage which is equal in meaning to 'patience'.
