

# с16-ес-302

## 6233

### BOARD DIPLOMA EXAMINATION, (C-16) MARCH/APRIL-2018

#### **DECE—THIRD SEMESTER EXAMINATION**

#### ELECTRONIC CIRCUITS

Time : 3 hours ]

[ Total Marks : 80

#### PART—A

3×10=30

ithia Dist " A.P

Instructions : (1) Answer all questions, 🖒

- (2) Each question carries **three** marks.
- (3) Answers should be brief and straight to the point and shall not exceed *five* simple sentences.
- **1.** Explain the thermal runaway.
- **2.** Write the importance of heat sink.
- **3.** Draw the circuit diagram of two-stage RC-coupled amplifier.
- **4.** Explain the concept of positive feedback.

**6**.

- 5. Compare the characteristics of the negative feedback amplifiers.
- 6. List the applications of class C amplifier.
- 7. Explain the Barkhausen criteria in oscillators.
- 8. List different linear wave-shaping networks.

\* /6233

[ Contd...

- 9. Draw the circuit diagram of shunt diode positive clipper.
- **10.** Explain the photovoltaic effect.

	<b>PART—B</b> 10	)×5=50	Q,
Inst	ructions : (1) Answer any five questions.	1	P
	(2) Each question carries <b>ten</b> marks.	. 9 <sup>°</sup>	
	(3) Answers should be comprehensive and the conformation is the content but not the length answer.	riterion 1 of the	
11.	Explain diode compensation technique with a neat circ diagram.	cuit 3+7	
12.	(a) Define stability factors and give their equations.	6	
	(b) Explain the importance of bias stabilization.	4	
13.	Explain the operation of transformer-coupled amplifier a draw the frequency response.	and 7+3	
14.	(a) Derive the expression for the gain of negative feedba amplifier.	ack 4	
	<i>(b)</i> Draw the block diagram of current series and voltage shu feedback amplifiers.	unt 6	
15.	Explain the working of class AB push-pull amplifier circu	it. 10	
16.	Explain the working of Colpitts oscillator with a neat circ diagram.	euit 10	
17.	Explain the working of Schmitt trigger circuit with waveform		
18.	(a) Explain the operation of transistor series voltage regulate	or. 7	
	(b) Explain the disadvantage of series voltage regulator.	3
